

12 Port Unloaded Patch Panel

Unloaded Patch Panel with Rear Cable Management Bar

Infinique's 12 Port Unloaded Patch Panels for Category 6 and Category 6A Keystone Jacks are rack mountable panels and can accommodate up to 12 UTP Keystone Jacks with 1U height. The keystone jacks can be snapped in easily with a simple click movement, without the need for any tool and the jacks also be removed easily if required. The patch panel has a dual frame construction for sturdy support of the keystone jacks which have 110 IDC terminations on the rear side.

In the front of the panel 1 to 12 ports are numbered clearly for easy port identification. Accessories included are Rack Mount Screws, Cable Ties, Earthing and Grounding. These panels have rugged construction and superior design with powder coated black finish and made of SPCC Cold Rolled Steel. This design provides enhanced plug-to-jack connection integrity and protects against damage caused by insertions.
